

# SPECIAL

*October is Pet Prevention Month*

Did you know that pets, like people, can develop diseases such as liver and kidney disease, diabetes, and much more?

## **That is SCARY**

We recommend testing your pet every year for some of these common illnesses through a blood panel. In the month of October we are offering a great deal:

**\$99.00** for a full wellness blood profile and complete blood count

**CALL & BOOK TODAY!**

\*pet must be current with their rabies vaccine and annual exam or receive at visit.
